

FP-35 Stove

Technical specs

Type of fuel	Pellets
Maximum recommended heating area	1700 sq. ft.
BTU/H maximum	35,000
BTU/H minimum	8,200
Color	Metallic black
Exterior dimensions	22.25"W x 25.18"D x 28.5"H
Approved vent diameter	3" or 4"
Loading capacity	35 lbs
Burn rate	1.3 to 4 lbs/hr.
Electrical consumption	2.5 Amps continuous duty

Electrical requirement	120 VAC - 60 hz - 15A
Choice of thermostatic or manual mode	Yes
Combustion technology	COMBEX
Number of intensity levels	6
Electronic igniter	Yes
Type of door	Glass with cast iron frame
Ash drawer	Yes
Minimum clearances (Sides)	6"
Minimum clearances (Back)	2"
Minimum clearances (Corners)	2"
Mobile home approved	Yes
Glass type	Ceramic glass
Glass surface	106 sq. in.
Weight	190 lbs
Warranty	Limited lifetime
Test standard - safety	ASTM-E1509, ULC S627-00, UL1482-98
Test standard - emissions	EPA Method 28
